

N. JEEVA

Full-Stack Developer | Python · Django · React.js

+91 82708 07049 | njeeva854@gmail.com | linkedin.com/in/jeeva14 | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with 7+ months of production experience in Python, Django, and React.js. Designed 10+ REST API endpoints and delivered client-facing features across live projects. Also freelances, delivering complete websites for clients. Proficient with AI-assisted dev tools (GitHub Copilot, ChatGPT) for faster, cleaner code.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design
- **Backend:** Python, Django, REST API Development
- **Database:** SQL — Schema Design, CRUD, Data Integrity
- **Tools & AI:** GitHub Copilot, ChatGPT, Claude AI, Git, VS Code
- **Productivity:** Excel (Pivot Tables, VLOOKUP), Canva

PROFESSIONAL EXPERIENCE

Web Developer | *Swivel Technologies*

Sep 2025 – Mar 2026

- Led frontend development of responsive web apps using React.js, HTML5, CSS3, JavaScript (ES6+) in production.
- Integrated 10+ RESTful API endpoints into React.js frontend for seamless data exchange across modules.
- Contributed to backend development (Python, Django) — data pipelines and REST API support.
- Leveraged GitHub Copilot and ChatGPT daily, reducing debugging time and accelerating delivery.

Web Development Intern | *Vetri Technology Solutions*

Mar 2026 – Apr 2026

- Contributed to live web modules under senior developer mentorship in an agile environment.
- Applied industry coding standards for version control and collaborative development.

FREELANCE PROJECTS (CLIENT WORK)

RMA Residency Website | *HTML, CSS, JavaScript*

- Designed and built a responsive showcase website for RMA Residency, presenting facilities and information through a clean, mobile-friendly layout.

GitHub: github.com/jeeva081202

PROJECTS

Student Management System | *Python, Django, SQL*

- Built a full-stack student portal for managing student records, with clean CRUD workflows and a deployed production build.

Live Demo: student-management-system-p6q9.onrender.com

Banking Transaction Management System | *Python, Django, SQL*

- Simulated an online banking app with secure login, role-based access, and real-time balance tracking.

CRM System | *Python, Django, REST API, SQL*

- Built a lead/contact/sales pipeline CRM with dashboard analytics and RESTful APIs.

Other Projects | *Mini E-Commerce App · Payslip Generator*

- Built full-stack apps covering e-commerce with cart management and a dynamic payslip generator.

EDUCATION & CERTIFICATIONS

B.Sc. Physics — NMS S. Vellaichamy Nadar College, 2020–2023 | CGPA: 7.1

- Python Full Stack Development — Vetri Technology Solutions (Feb – Apr 2026)
- 2-Month Internship Certificate — Vetri Technology Solutions (Mar – Apr 2026)

CORE STRENGTHS

Problem Solving • AI-Augmented Development • Team Collaboration • Quick Learning • Adaptability • Communication
